it didn't happen. Also i install the mode main game data folder. Please help me.

Q kbvnhld ▼ Posted <u>Apr 14, 2020</u> #170 Also, what do you mean by the 'root folder'?

Hi,i have a issues.when i installed the mod i saw that there were no some parts. I installed the mode again and again but still

I only got the Mk3 Cargo Cockpit, anti-roll landing skids and the propeller engines. The engine sounds have also Note: I tried moving it to the GameData folder and the root folder, but neither worked. I also tried updating (downdating?) KSP to 1.8.1 from 1.9.1 and that did nothing. parts don't work. Hopefully this issue gets resolved.

I've found that it's "Firespitter" that stops KSP from loading. Removing "Firespitter" lets the game load, but some of the
